HOPE FOR FREE CANAL TOLL PLAN

Sugar Fleet May Enter Canal Free

Prospects Good For Passage Of Bill Favored By Local Business Men

Prospects are good for the passage by Congress of the proposition to make the Panama Canal free of toll charges to coastwise trading vessels, including the Hawaiian sugar fleet. The Chamber of Commerce took this matter up not long ago upon a comprehensive report from the harbor and transportation committee, and passed a resolution in favor of the free-toll plan.

The chamber several days ago received a letter from George McK. McClellan, its representative in Washington, that was rather discouraging, holding out little hope of action at the present session. However, it now appears, according to later advices from the capital, that the Democrats are taking the matter up with a good prospect of passing the bill admitting United States vessels to the canal free of charge or, at least, with only nominal charges.

The measure was originally to be made an administration one, and was strongly urged by President Taft in his message at the opening of his last session of Congress. Some opposition appears to have developed among the Republican House members, according to Mr. McClellan's letter, which is in part as follows:

and he told me that it was his intention to try to secure an agreement to take up the question of canal tolls after the tariff bills have been put through the House. It is, of course, impossible to say at this time whether he will be successful, in securing action by that means or not.

It is understood that lively opposition to the plan has developed from the present chairman of the House committee on interstate commerce, Representative W. O. Adamson of Georgia, who wishes to defer action until next session.

Meanwhile the Democrats are taking the matter up as a party measure. News from Washington recently received here says that within a short time the Democrats will caucus on the subject, and that it has already gained much strength among the Bourbons.

Free canal passage for American ships means hundreds of thousands of dollars saved to local shippers. This was brought out in the committee report to the Chamber of Commerce, and it was urged that the development of the Territory would be largely held back if cargoes to and from the islands should be taxed by toll charges.

With both Democrats and Republicans working for the plan, success is in sight, and action of some kind is expected at the present session, though it will probably not be decisive.

NEW WIRELESS STATION IS HELD UP

Unforeseen delay in settling condemnation proceedings has held up the building of a new wireless station that is to be established at Fort De Russy. Practically everything now is complete except the court proceedings, but the federal government is still unable to settle upon the exact site for the station.

The two tall poles that are to be set up are ready, the concrete base-

blocks are about complete, and the instruments are now on the way here, but the U. S. District Attorney's office has not yet completed the legal work. The site is to be mauka of Fort De Russy yet still fairly near the beach. The station is to be used for fire-control signalling and the wireless apparatus at the naval station will still be kept in use. The new wireless apparatus is for army work.

ELKS AND PARADE BOTH IN EVENING

Festivities in connection with the next Floral Parade will be held night and day, and Director Arthur F. Wall is planning a mammoth torchlight procession and other features for the evening of February 22 that will eclipse anything attempted in the past.

Director Wall is going ahead with plans for the evening's features, although the Elks have declined to make any switch in their annual Elks' carnival dates. The Floral Parade evening's attractions promise to rival the Elks' in no uncertain manner.

"The Floral Parade and its various features will be free to the public and given for the public," said Mr. Wall this morning, "and I shall leave no stone unturned to make it the best ever." As a matter of fact, the director expects to give up a large part of his summer to work on the annual pageant. He is now making out his lists of committees and will have them ready to announce shortly.

The Metropolitan Meat Market will close at noon tomorrow. One delivery only.

11:00 a. m.: Special Coronation service at St. Andrew's Cathedral.
1:30 p. m.: Coronation cricket match, at Alexander field.
1:30 p. m.: Children's sports, at Panahou campus.
8:30 p. m.: Ball at Moana hotel.

Honolulu will celebrate the crowning of George V. appropriately tomorrow. Final arrangements for the sports and coronations that will mark the day were made last night following the committee meeting at the Scottish Thistle Club.

Many business houses will be closed all day tomorrow, in honor of the occasion, and the official celebration will begin at 11 o'clock, with a special coronation service at St. Andrew's Cathedral. The combined choirs of the Cathedral and St. Clement's will participate, and the prayers said will be the same as those used in Westminster Abbey. The service is adapted from the coronation program. The anthem by Horley will begin the service, the program being as follows:

- 1.—Anthem—Horley.
2. Litany.
3. Introit, "Veni Creator"—Attwood.
4. Sermon—Bishop H. B. Restarick.
5. Hymn, "O King of Kings"—Sir A. Sullivan.

TERRITORY WILL ENDEAVOR TO RECOVER LAND NOW HELD BY KAPIOLANI ESTATE

Proceedings for the recovery of about thirty-six acres of land that are now claimed to be unlawfully held by the Kapiolani Estate will shortly be instituted by the Territorial Government through Attorney General Lindsay. Through a decision handed down by the Supreme Court yesterday the Kapiolani Estate was ousted from all right to valuable lands in Maunaloa, ejectment proceedings having been instituted against the estate by E. W. Sutton, Deputy Attorney General. The contentions of the Government in respect to the Maunaloa land were sustained all along the line yesterday in the decision of the Supreme Court. The efforts of the Government will now be directed toward ousting the estate from thirty-six acres of land in the Moiliili district some of which is cultivated and from which the estate is apparently deriving a rental. It is claimed by the Government that the land is the property of the Territory and that the estate has no more right to settle upon it than it had upon the Maunaloa lands.

The difference in time between Honolulu and London is 10 hours and 27 minutes, London time being that much ahead of local time. The king is to be crowned at 2 o'clock, London time, tomorrow afternoon, consequently at 3:33 a. m. by local watches.

BOARD OF EDUCATION ASKS SUPERVISORS TO PROVIDE BADLY-NEEDED BUILDINGS

The need of additional room for a constantly-increasing attendance at county schools was brought before the city fathers at a meeting held last evening, at which time there was received a communication from T. H. Gibson, acting superintendent of public instruction. The opening of Island schools for the fall term, which date has been set for September 18, has demonstrated that many of the school buildings in the outside districts of the Island of Oahu are much crowded. Recommendations for repairs are also made.

McKinley High School, with 189 pupils, is in need of only minor repairs to the basement.

The supervisors are advised that a new building is a necessity for the proper care of pupils attending Maunaloa school. For Puhukou and Puhou schools, general repairs and repainting are now planned. The Department of Education hopes to secure a piece of land in front of Puhou school building in order that more room may be had for a playground as well as a larger frontage along the main road. General repairs are recommended for Central Grammar School, Kalaheo, with 695 pupils; Kaulaueia, with 373

pupils, and Maunaloa, with 163 pupils, are now declared overcrowded. It is earnestly hoped that a way will be found for adding one room to each of these school buildings. Kaulaueia school, which last term housed 462 pupils, is said to be in sore need of two additional rooms to each of the present crowded condition that obtains there. At Alea, where 281 scholars attended last term, one additional frame room is demanded.

According to estimates now before the supervisors, three additional rooms will probably take care of the extra pupils who may apply at Pearl City and Waipahu schools.

Watertown is another growing district that is in positive need of better school facilities. This was one of the matters that came up before a former Board of Supervisors. Lack of funds prevented the municipal government carrying out the recommendations then presented. A new frame building to accommodate at least ninety-five pupils should be erected, and a four-room building is believed advisable.

Down at Ewa the board has received a number of petitions calling for relief from a congested school premises. According to reports, 317 scholars attend there. The board learned last night that two additional rooms and (Continued on Page 4)
